

## CARBON REDUCTION PLAN

Supplier name: Hoppa Technologies Ltd

Publication date: 12<sup>th</sup> March 2025

### Commitment to achieving Net Zero

Hoppa Technologies Ltd is committed to achieving Net Zero emissions by 2030.

### Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

**Baseline Year: 2024/25**

#### Additional Details relating to the Baseline Emissions calculations.

Hoppa was founded in 2024 and is adopting the emissions from its first annual reporting period as its baseline. Note: this baseline reporting period is only partially complete.

#### Baseline year emissions:

EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	0
Scope 2	0
Scope 3	1.71
(Included Sources)	Made up of the following categories: <ul style="list-style-type: none"><li>2. Capital goods and services</li><li>6. Business travel</li><li>7. Employee commuting &amp; remote-working</li><li>8. Upstream leased assets</li></ul>
Total Emissions	1.71

## Current Emissions Reporting

Reporting Year: 2024/25 (partial)

EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	0
Scope 2	0
Scope 3	1.71
(Included Sources)	Made up of the following categories: <ul style="list-style-type: none"><li>• 2. Capital goods and services</li><li>• 6. Business travel</li><li>• 7. Employee commuting &amp; remote-working</li><li>• 8. Upstream leased assets</li></ul>
Total Emissions	1.71

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 0 tCO<sub>2</sub>e by 2030. This is a reduction of 100%.

To achieve net-zero emissions by 2030 we will:

- Continue to use cloud-hosting providers (Microsoft Azure) adopting equivalent decarbonisation pathways and investing in energy efficient infrastructure.
- Choose low-carbon methods of transport where available for commuting and business travel.
- Purchase Gold Standard certified offsets that remove greenhouse gases to offset all domestic and international flights.

Hoppa will report on progress against these first-year targets following its second complete reporting period (2025/26).

## Carbon Reduction Projects

None at present.

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

### Signed on behalf of the Supplier:

Tom Goldsmith  
CTO & Co-Founder  
Hoppa Technologies Ltd  
Date: 12/03/2025
